

MOBILE PAYMENT AT YOUR STORE A BREEZE WITH PAYCONIQ!

Everybody always has their smartphone with them, and that's all that's needed to pay effortlessly with Payconiq! With this easy-to-use app, customers pay using their smartphone. This is how it works.

1 Your client **opens the Payconiq by Bancontact app** on his smartphone.

2 Enter the purchase amount on the **cash register**.

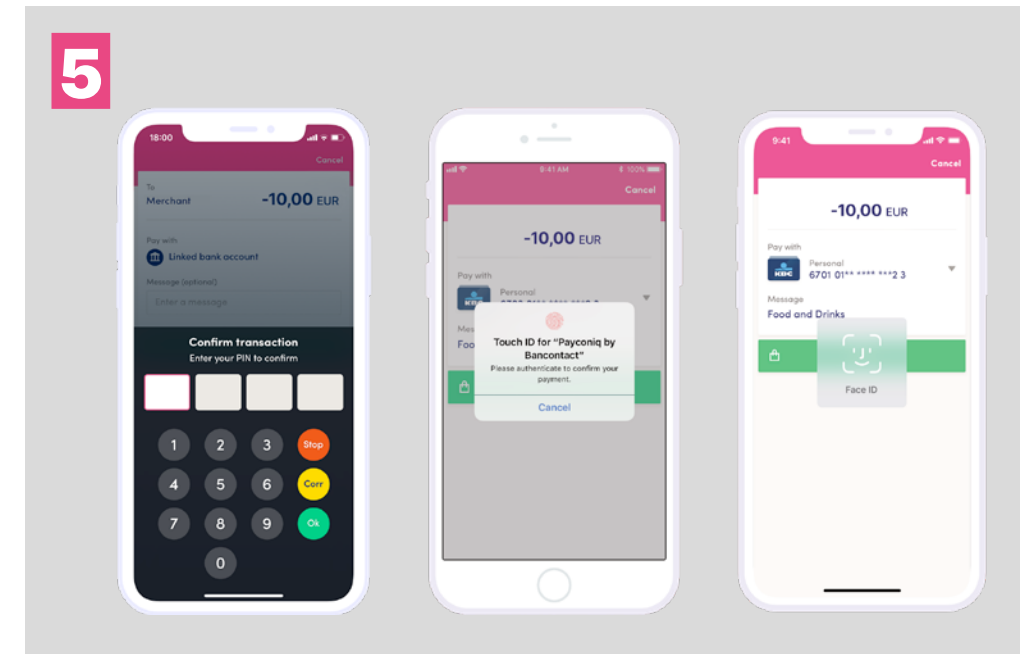

2 Enter the purchase amount **on the terminal**.

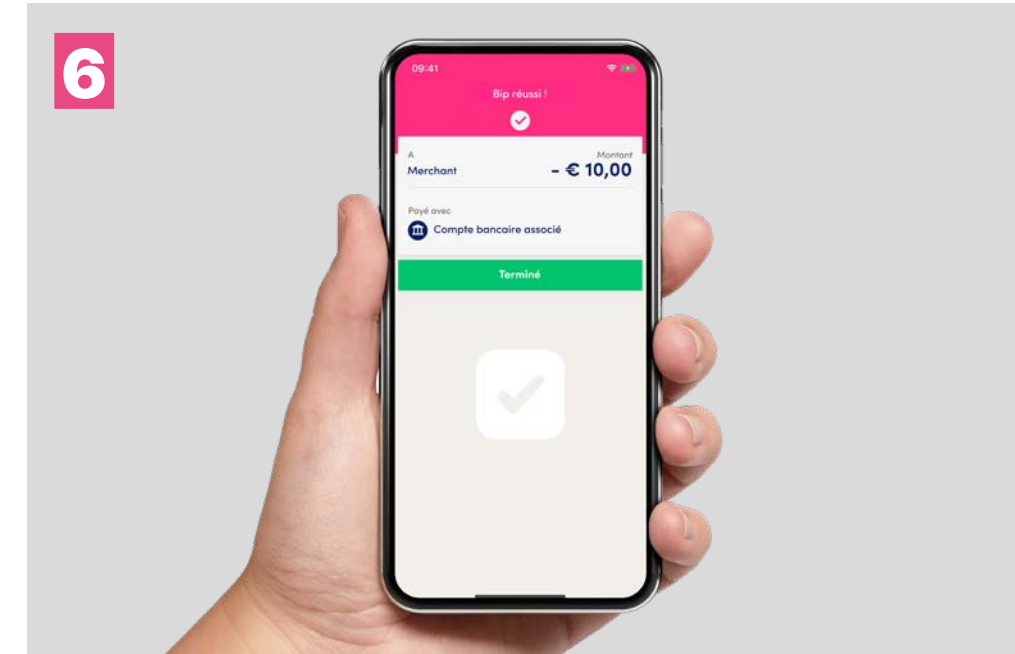

3 The **QR code appears automatically** on the screen of the Worldline terminal. The merchant/cashier doesn't need to do anything more.

4 Your client **scans the QR code on the terminal** using his smartphone.

5 Your client uses his **pin code, fingerprint or face ID** to confirm the payment.

6 The payment is **complete!**

7 After successful payment, your customer receives a **confirmation notification via the app and a sales receipt**.

TWO IMPORTANT SIDENOTES

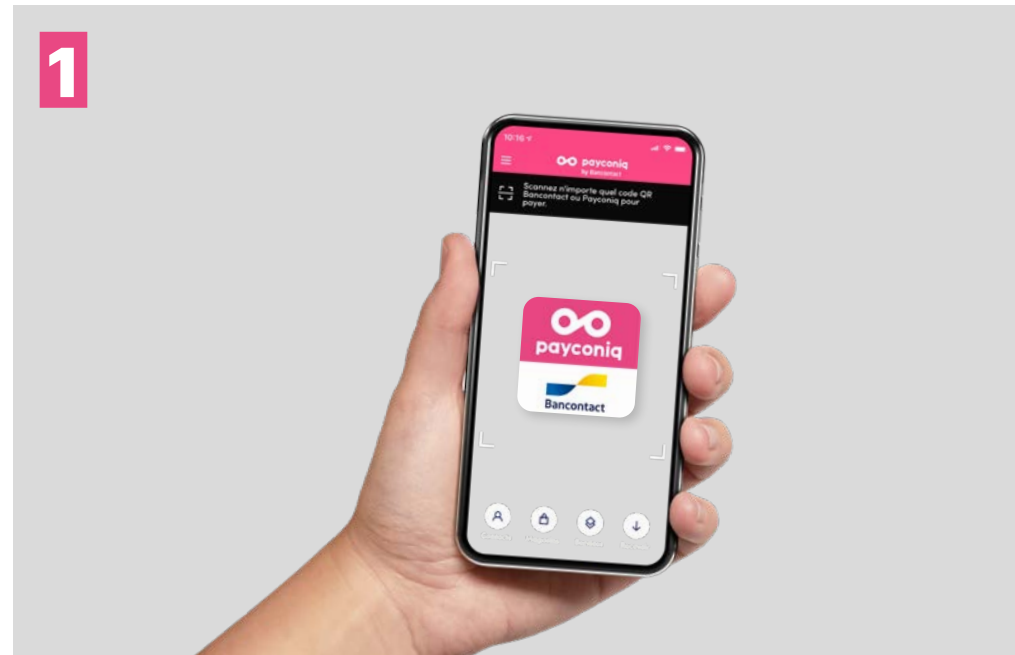

- When a customer wants to pay with their Payconiq by Bancontact app, his smartphone **must be connected to a Wi-Fi/mobile network**.
- In order to pay via Payconiq payment method, **the minimum purchase amount is 0,02 euros. The maximum daily limit is 500 euros**.
